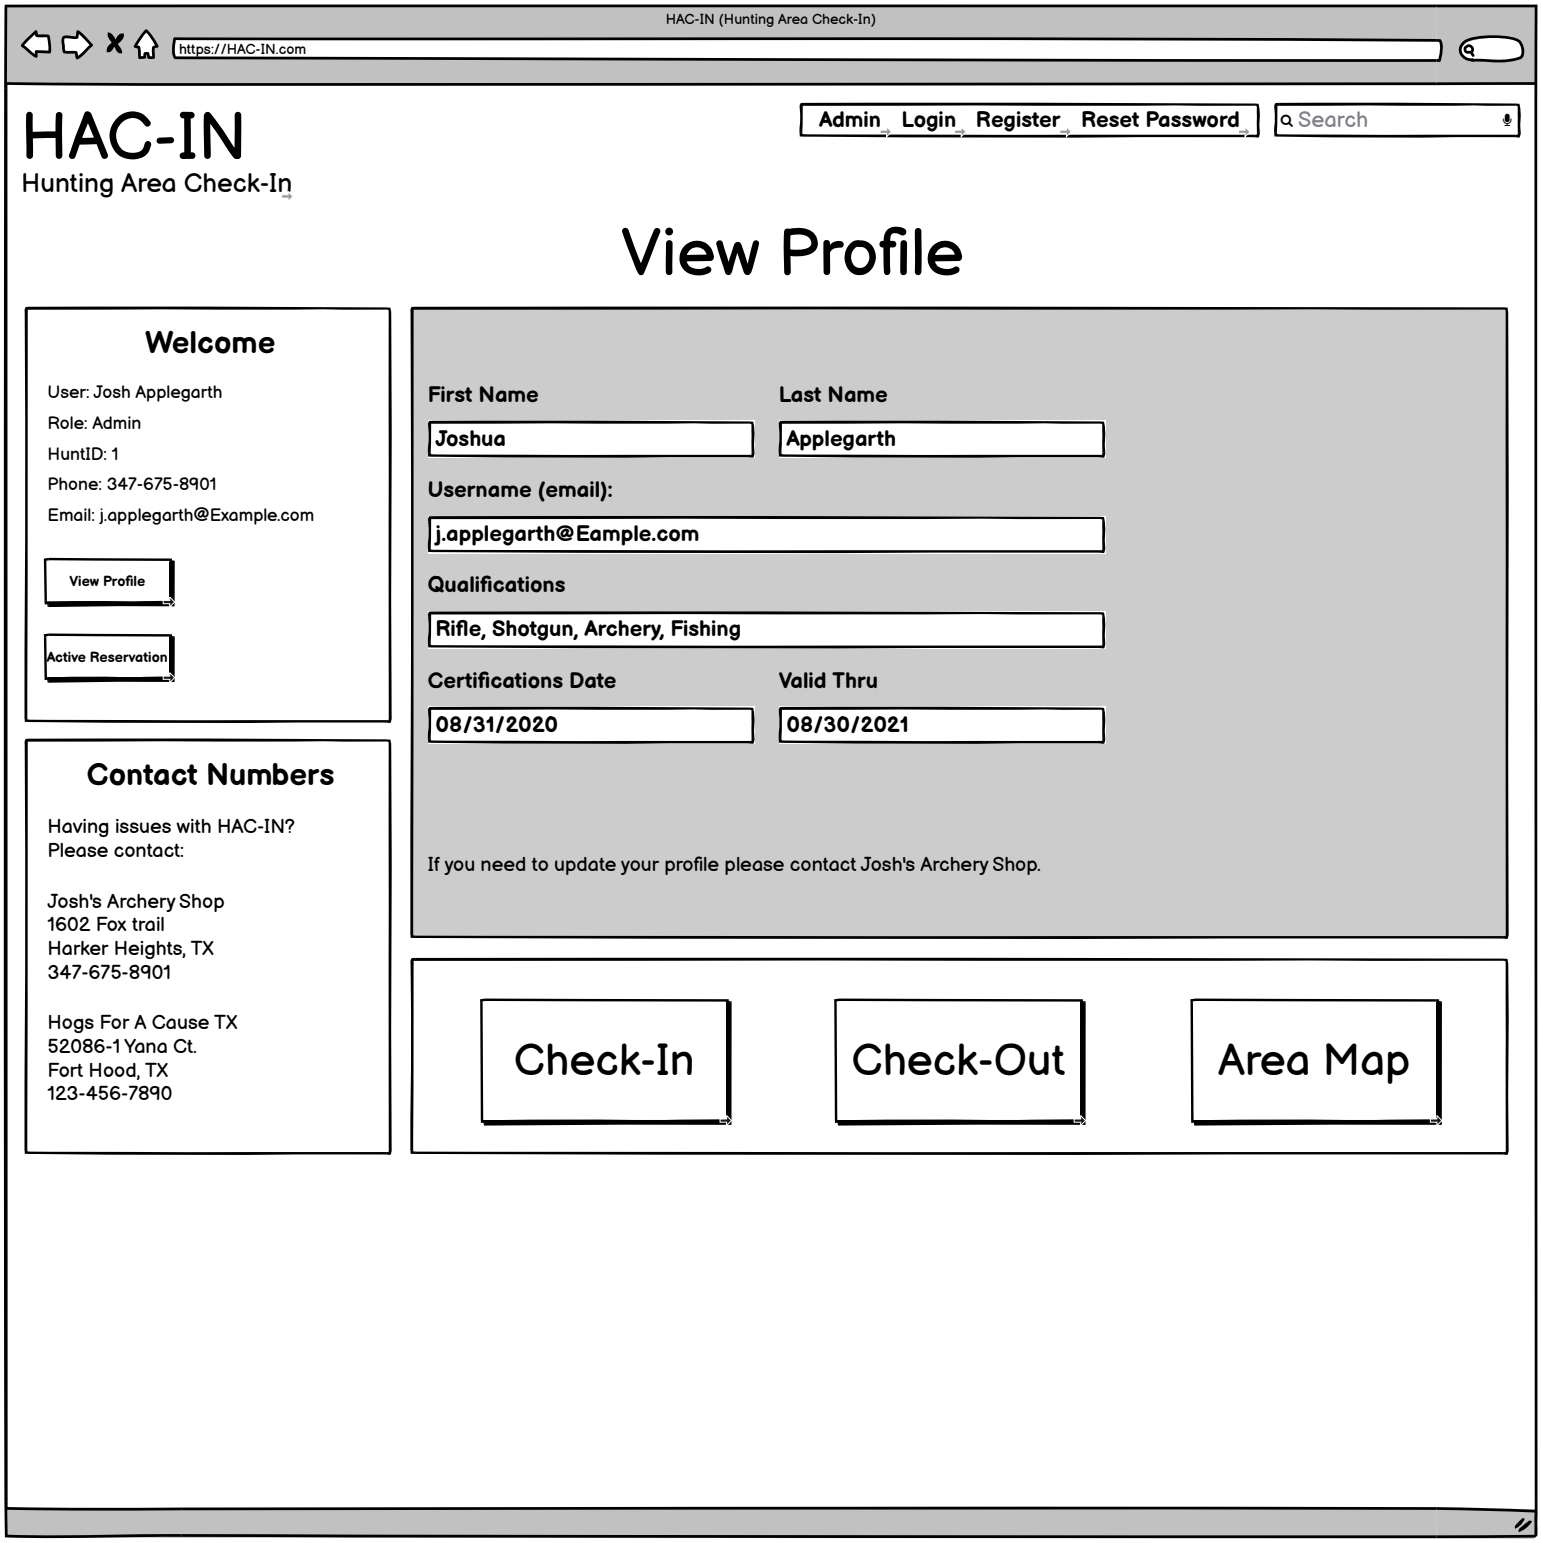
Hunter Credential Logged In Page

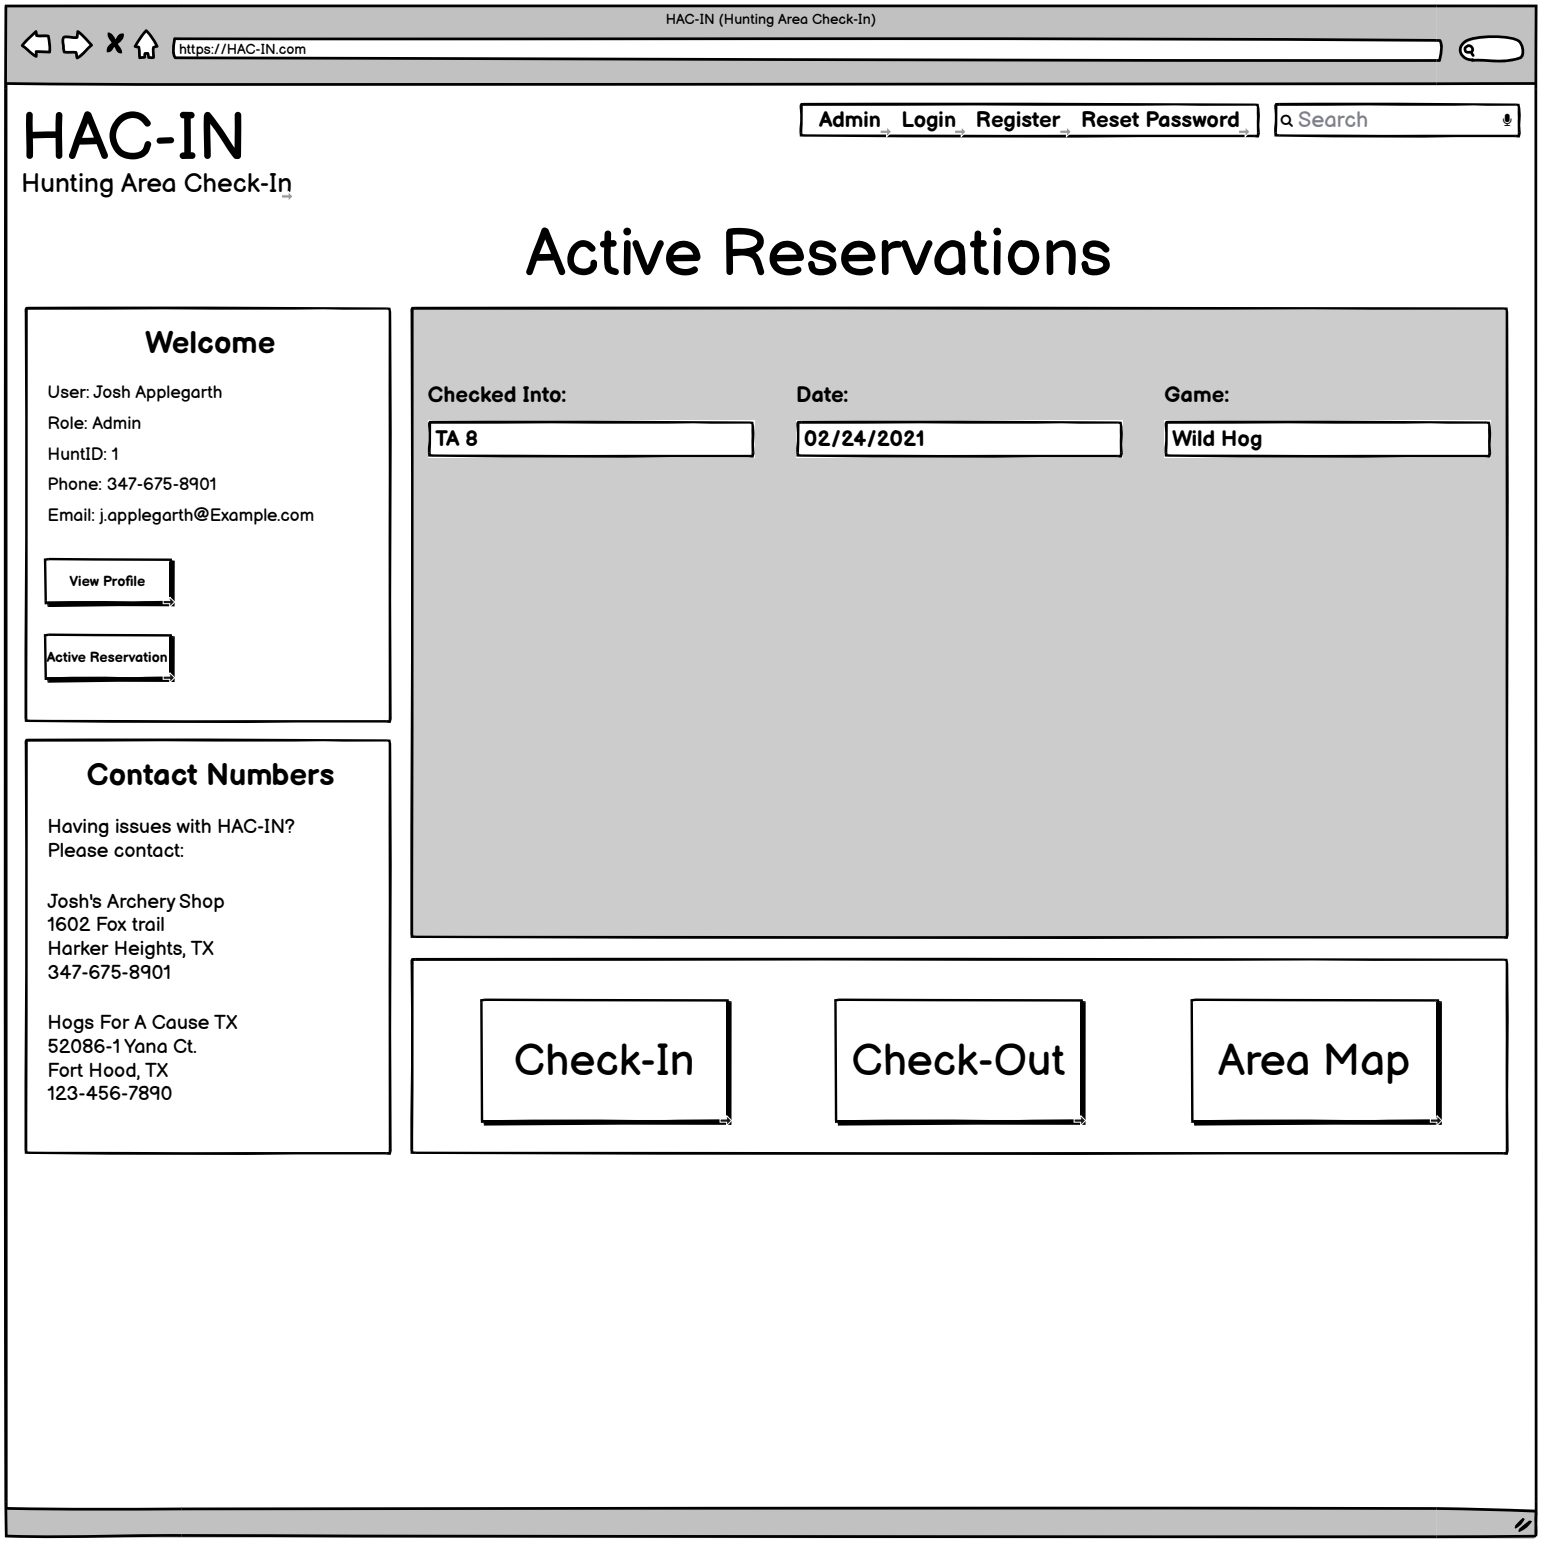
Shows Hunter Credential in side bar

Gives options to:
- Check-in to a TA
- Check-out of a TA
- View the Area Map



View Profile Page;

Allows a Hunter to view what is on file and in the DB for his/her Profile

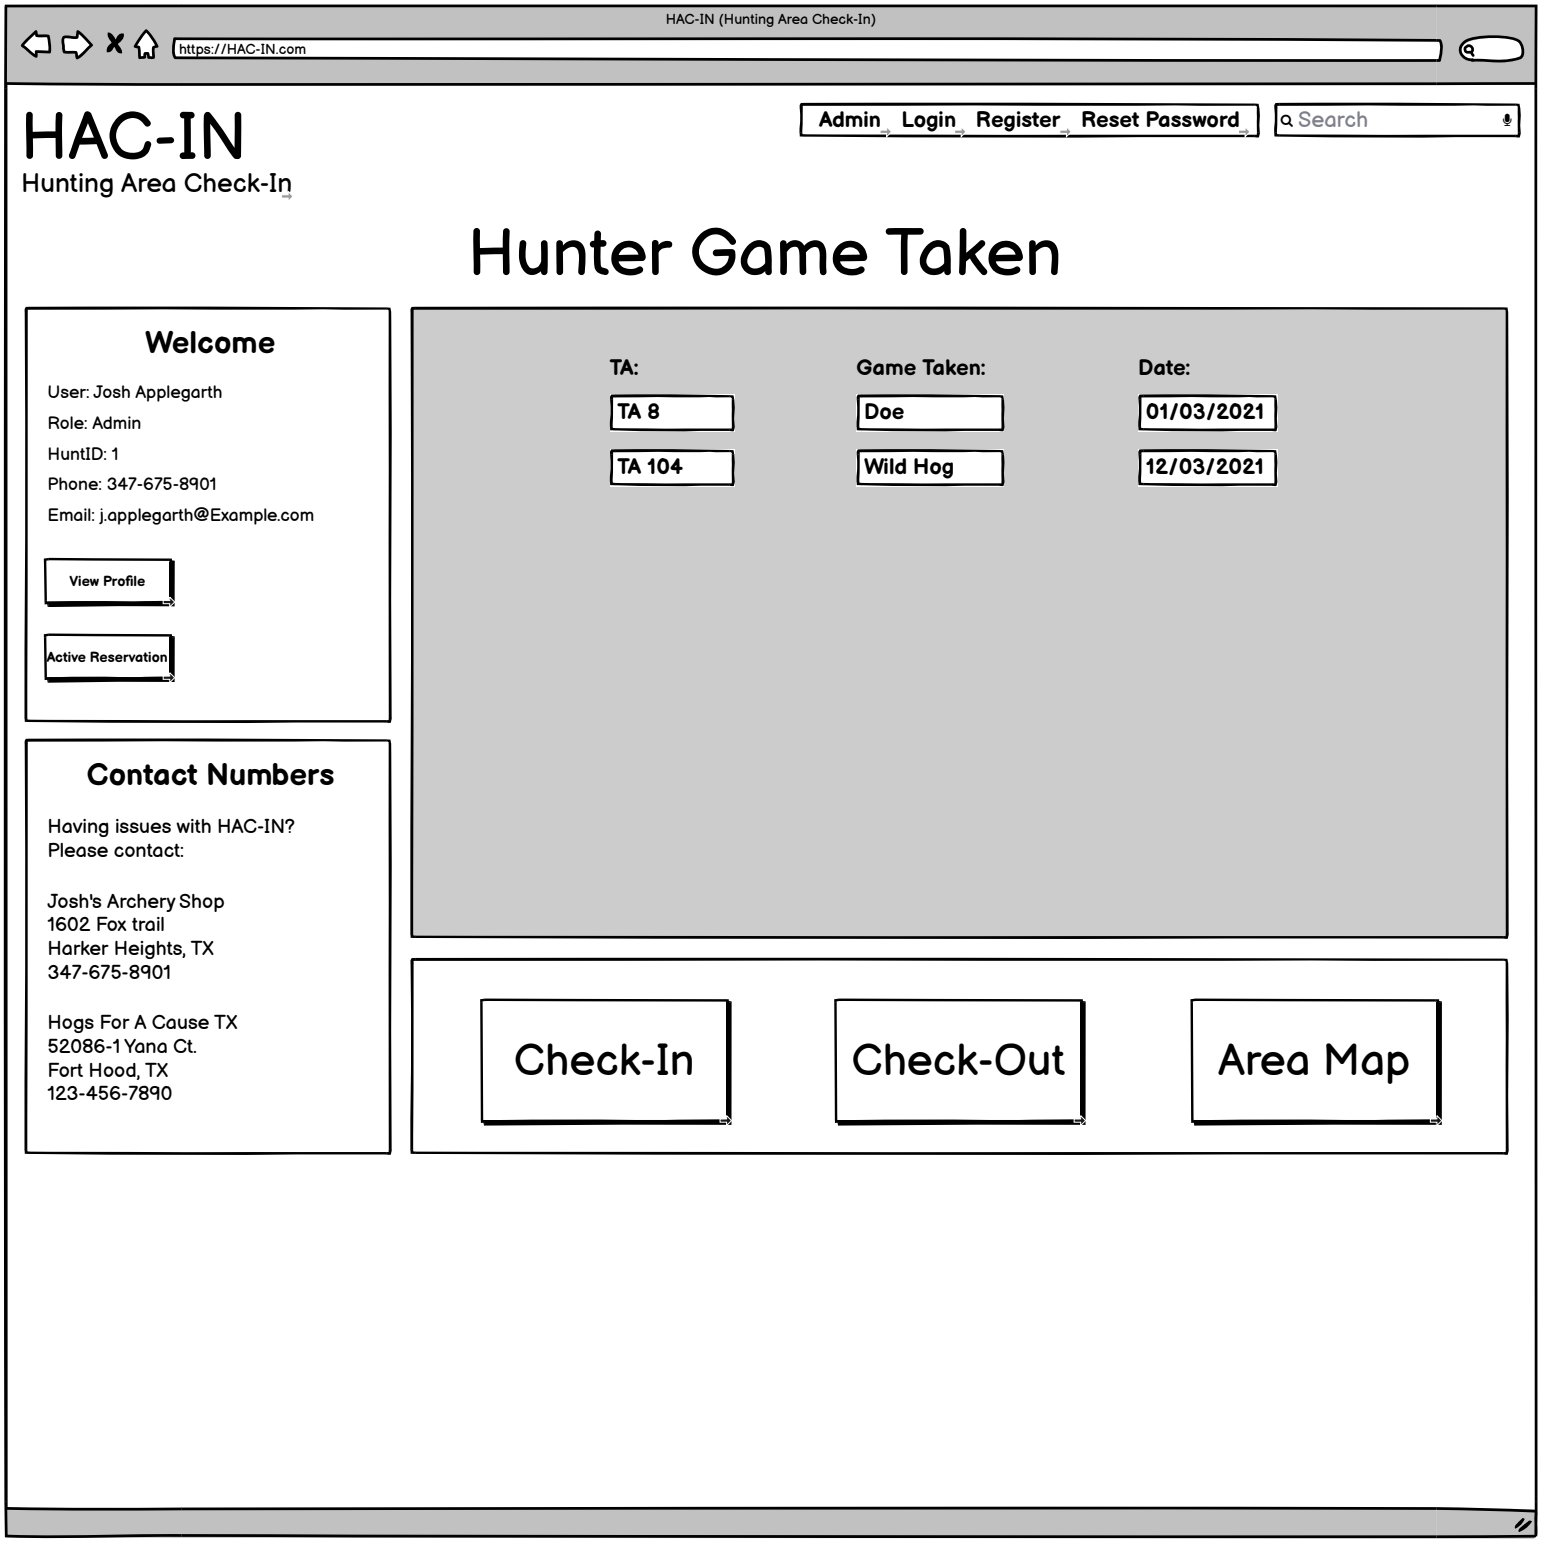


Active Reservations Page;

Shows Hunters Active reservation.

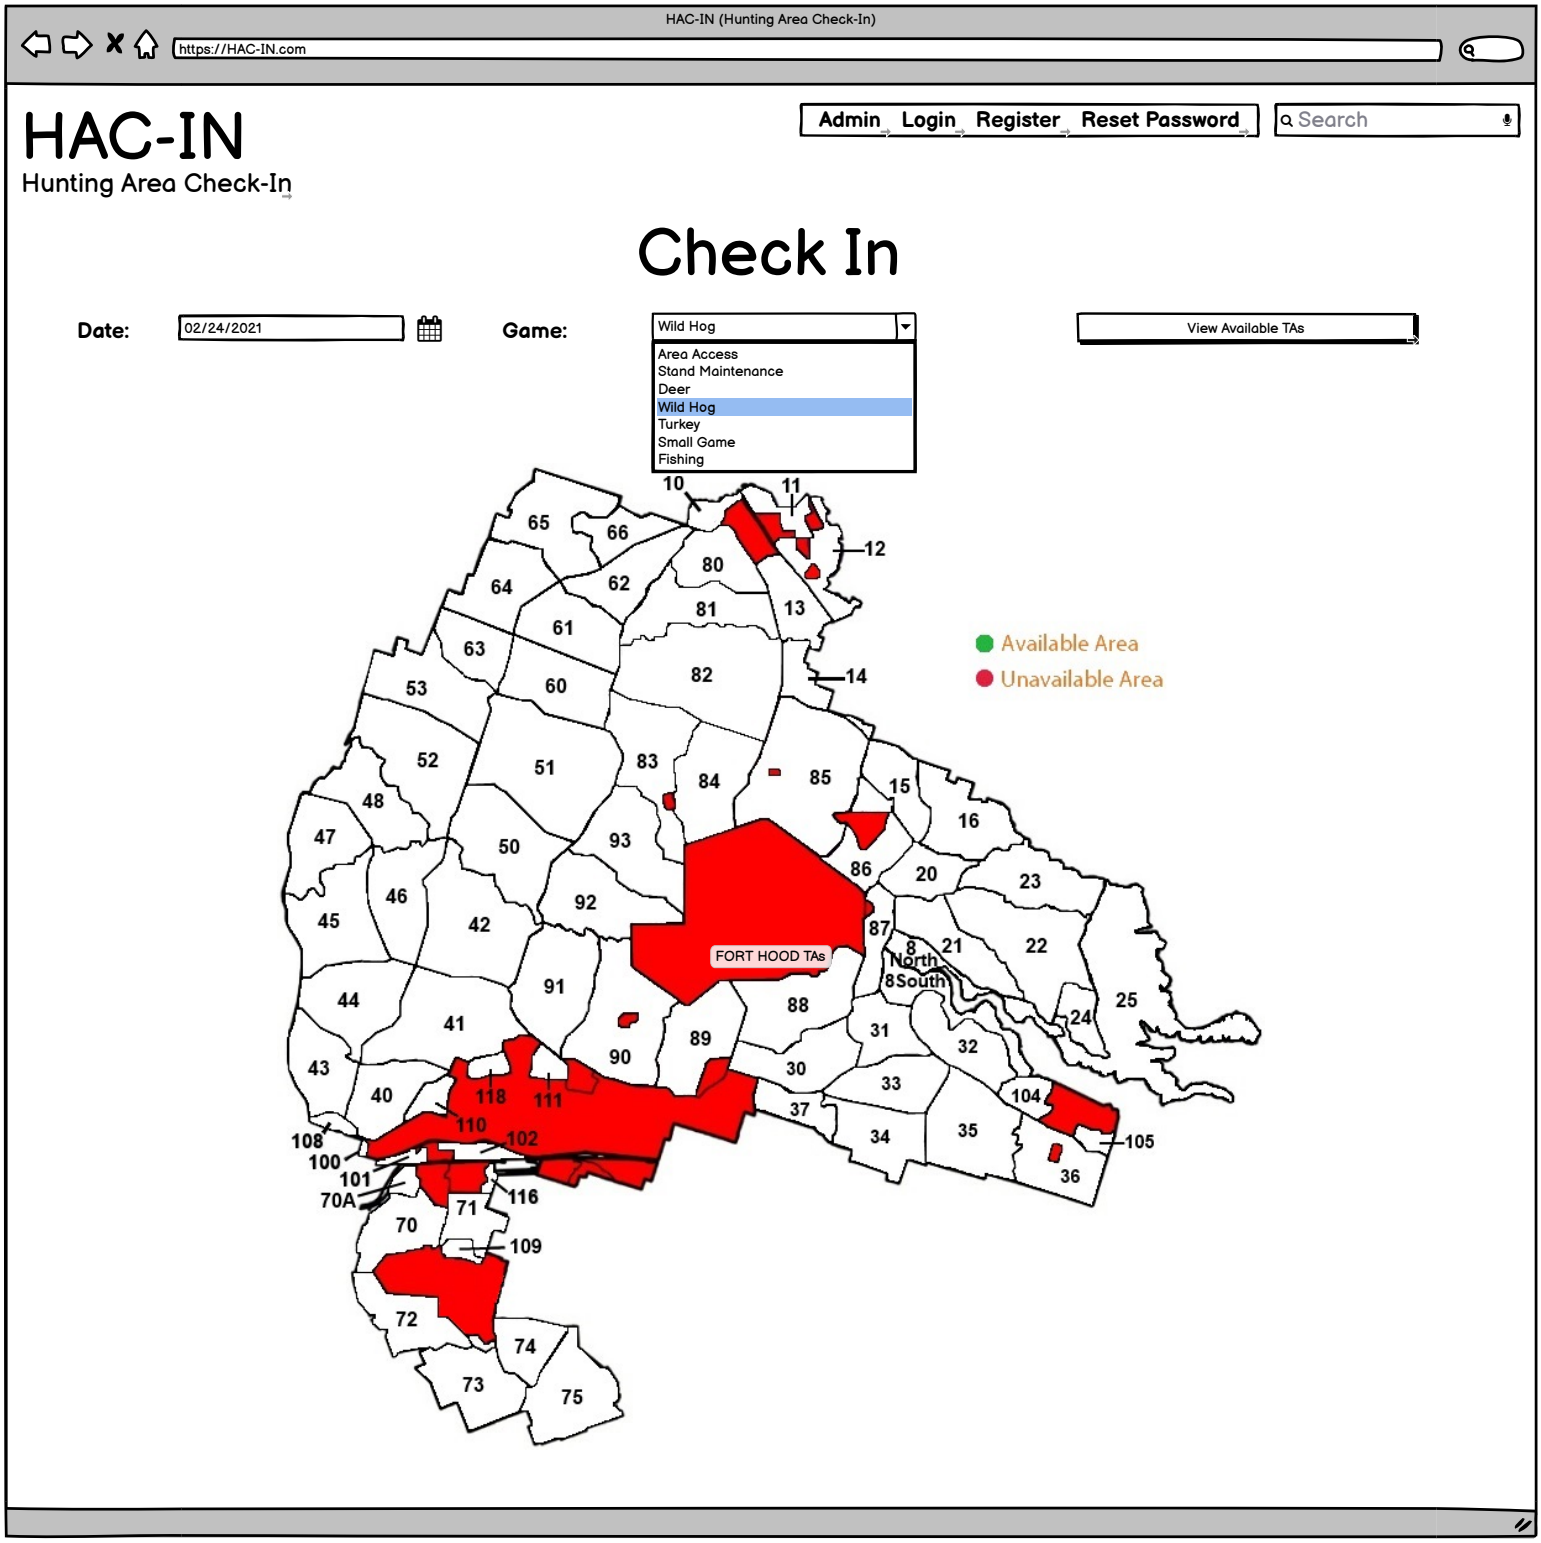
Admin Game Taken PAge;

Allows Admin to filter through and show all game taken by TA.



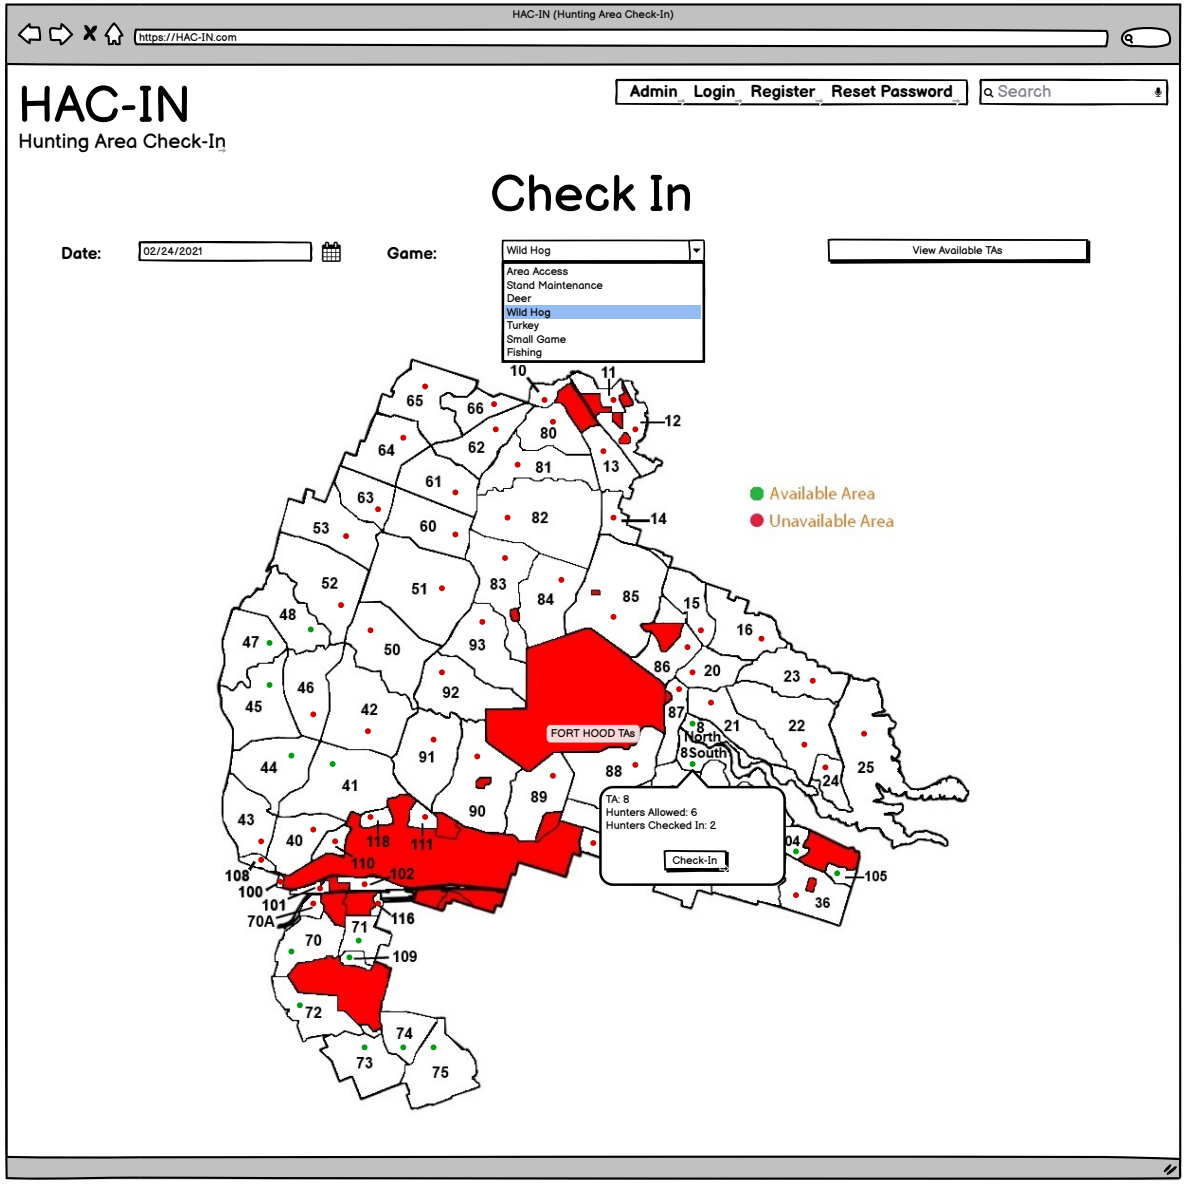
Hunter Game Taken Page;

Shows a Hunter all the game they have taken by TA, Game, Date.



Check-in Page;

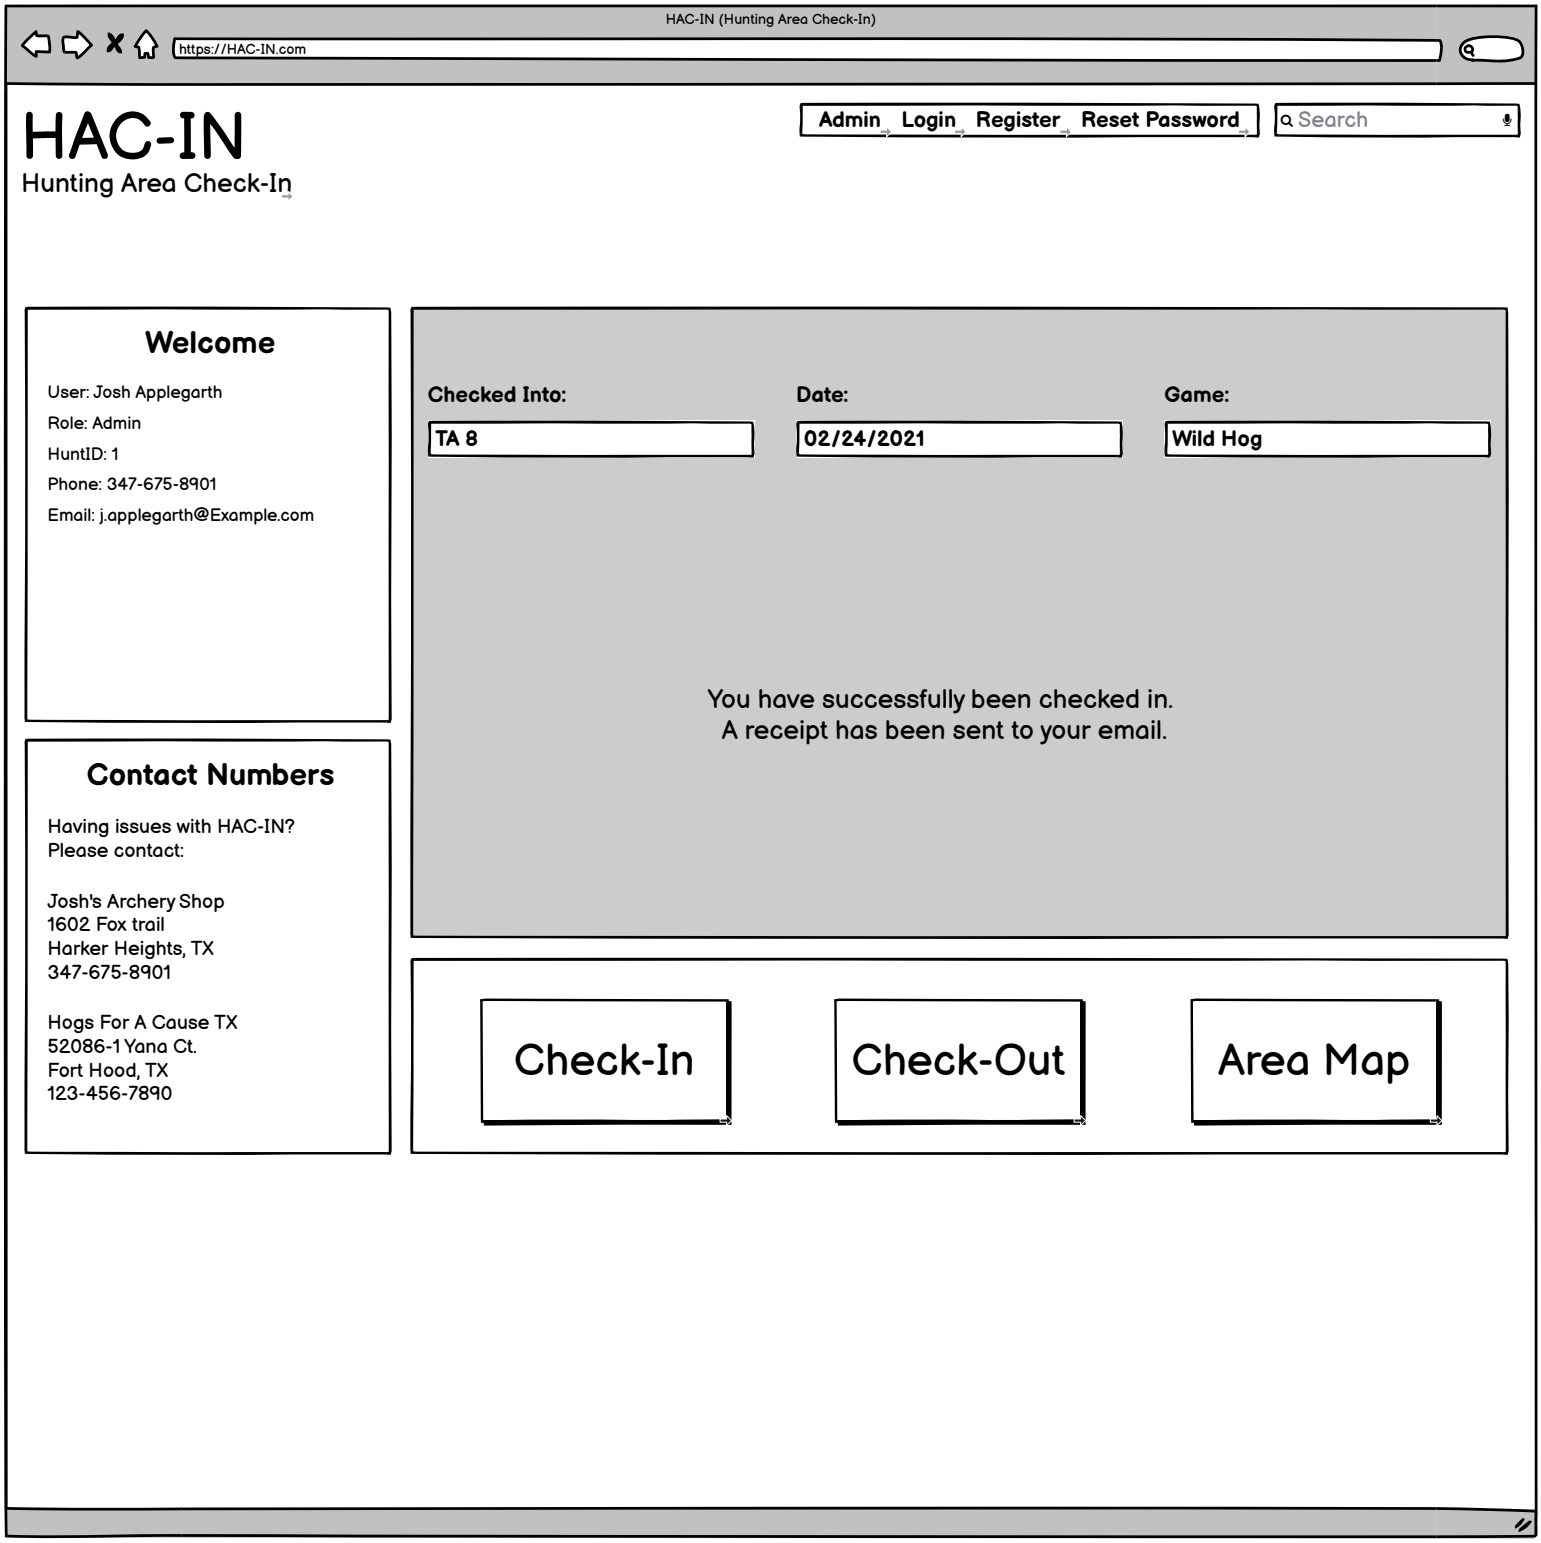
A Registered User can select a date for a reservation to hunt, then select what kind of access is needed, then search available TAs that are open along with which ones are not maxed out on allowed Hunters in the specified TAs



Available TA Page;

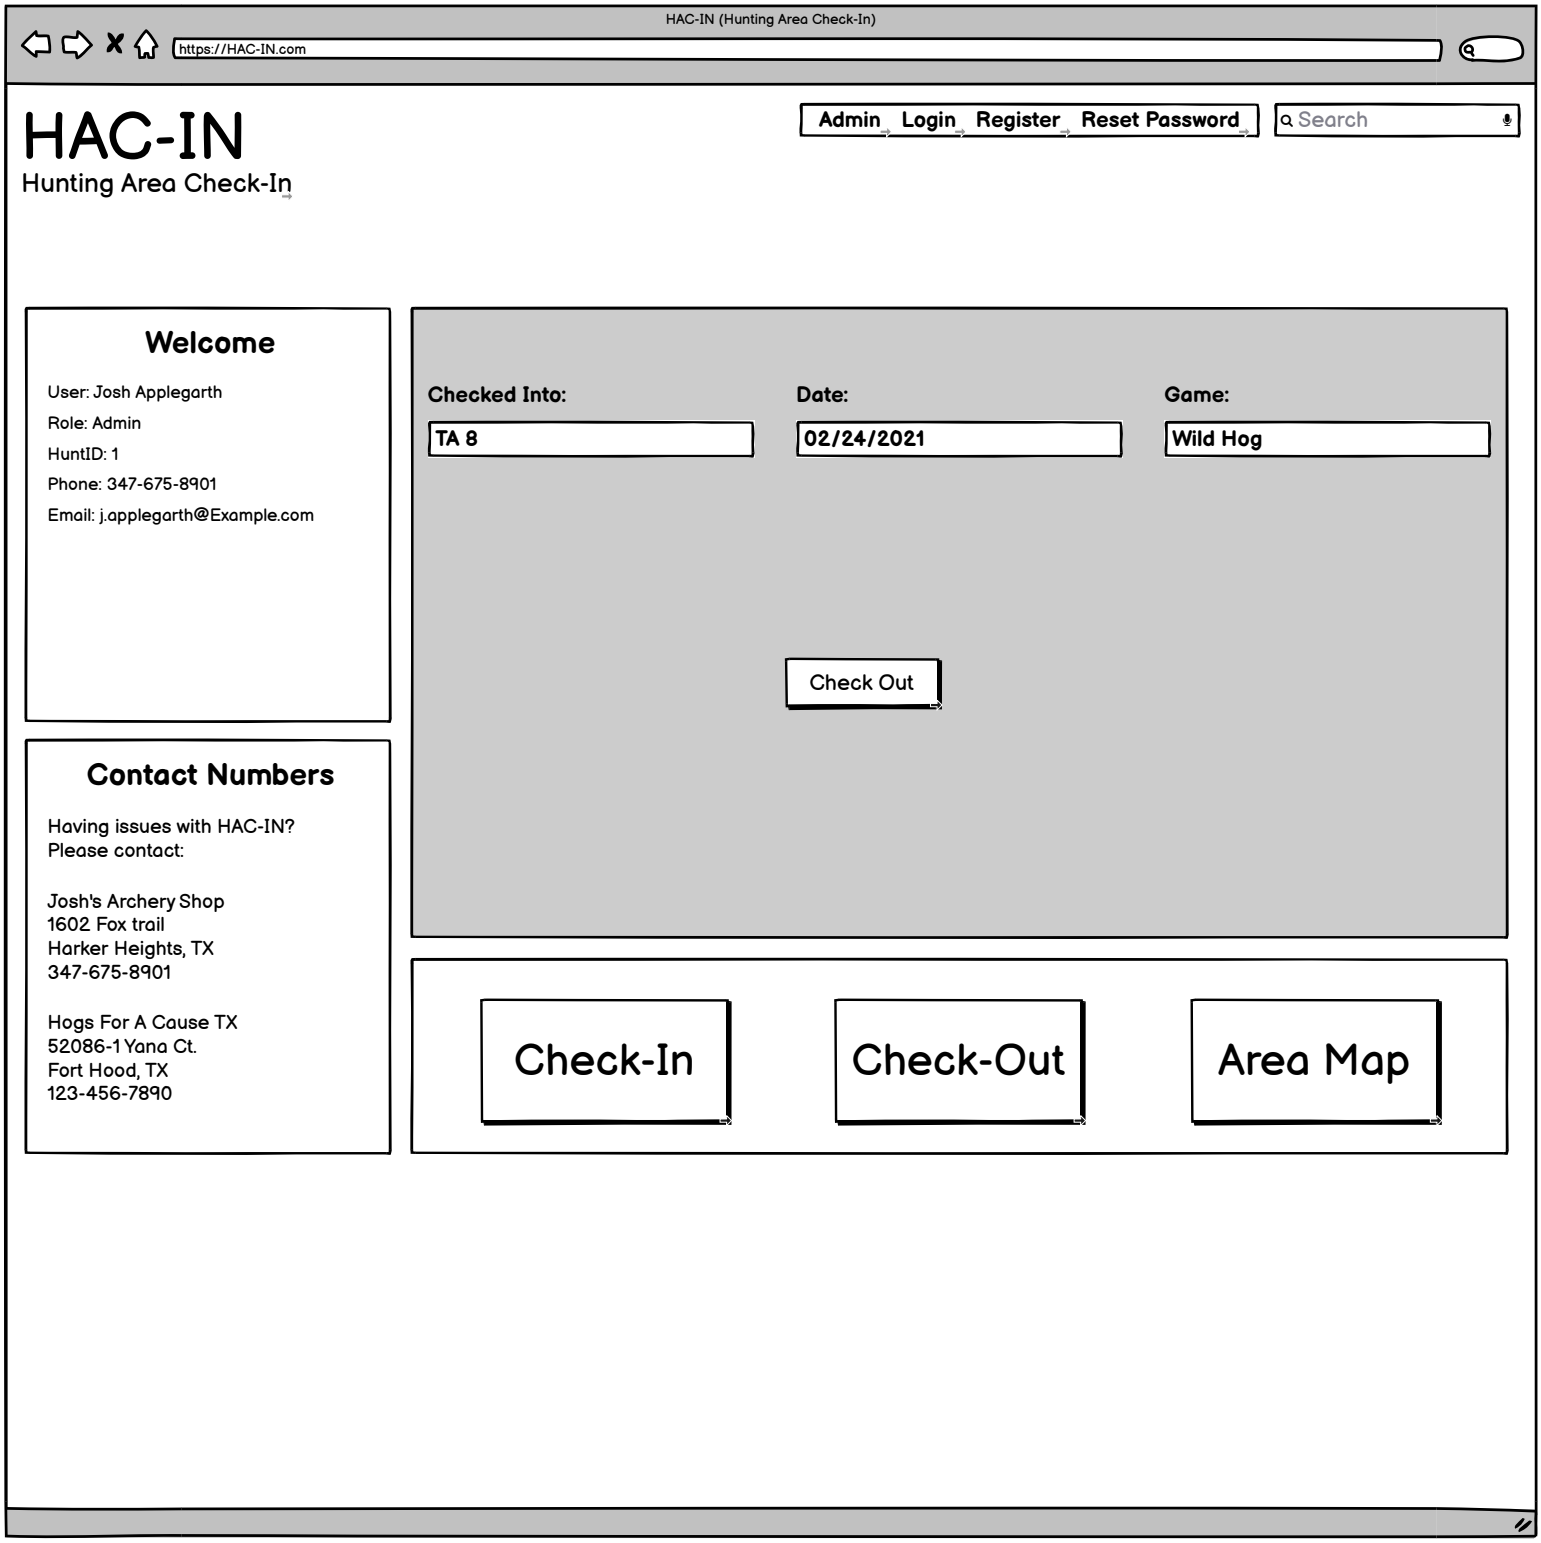
Once a Hunter has selected a Date and game they would like to hunt, this will show which TAs are available to hunt bye a Green dot (red dot means you cannot hunt that area);

Then once you select an available TA, It will show how many Hunters allowed, and how many are checked into that area.



Checked In Page;

Once a successful reservation has been made it will generate and email receipt and show this page confirming which TA and for what Game a Hunter is reserved for.

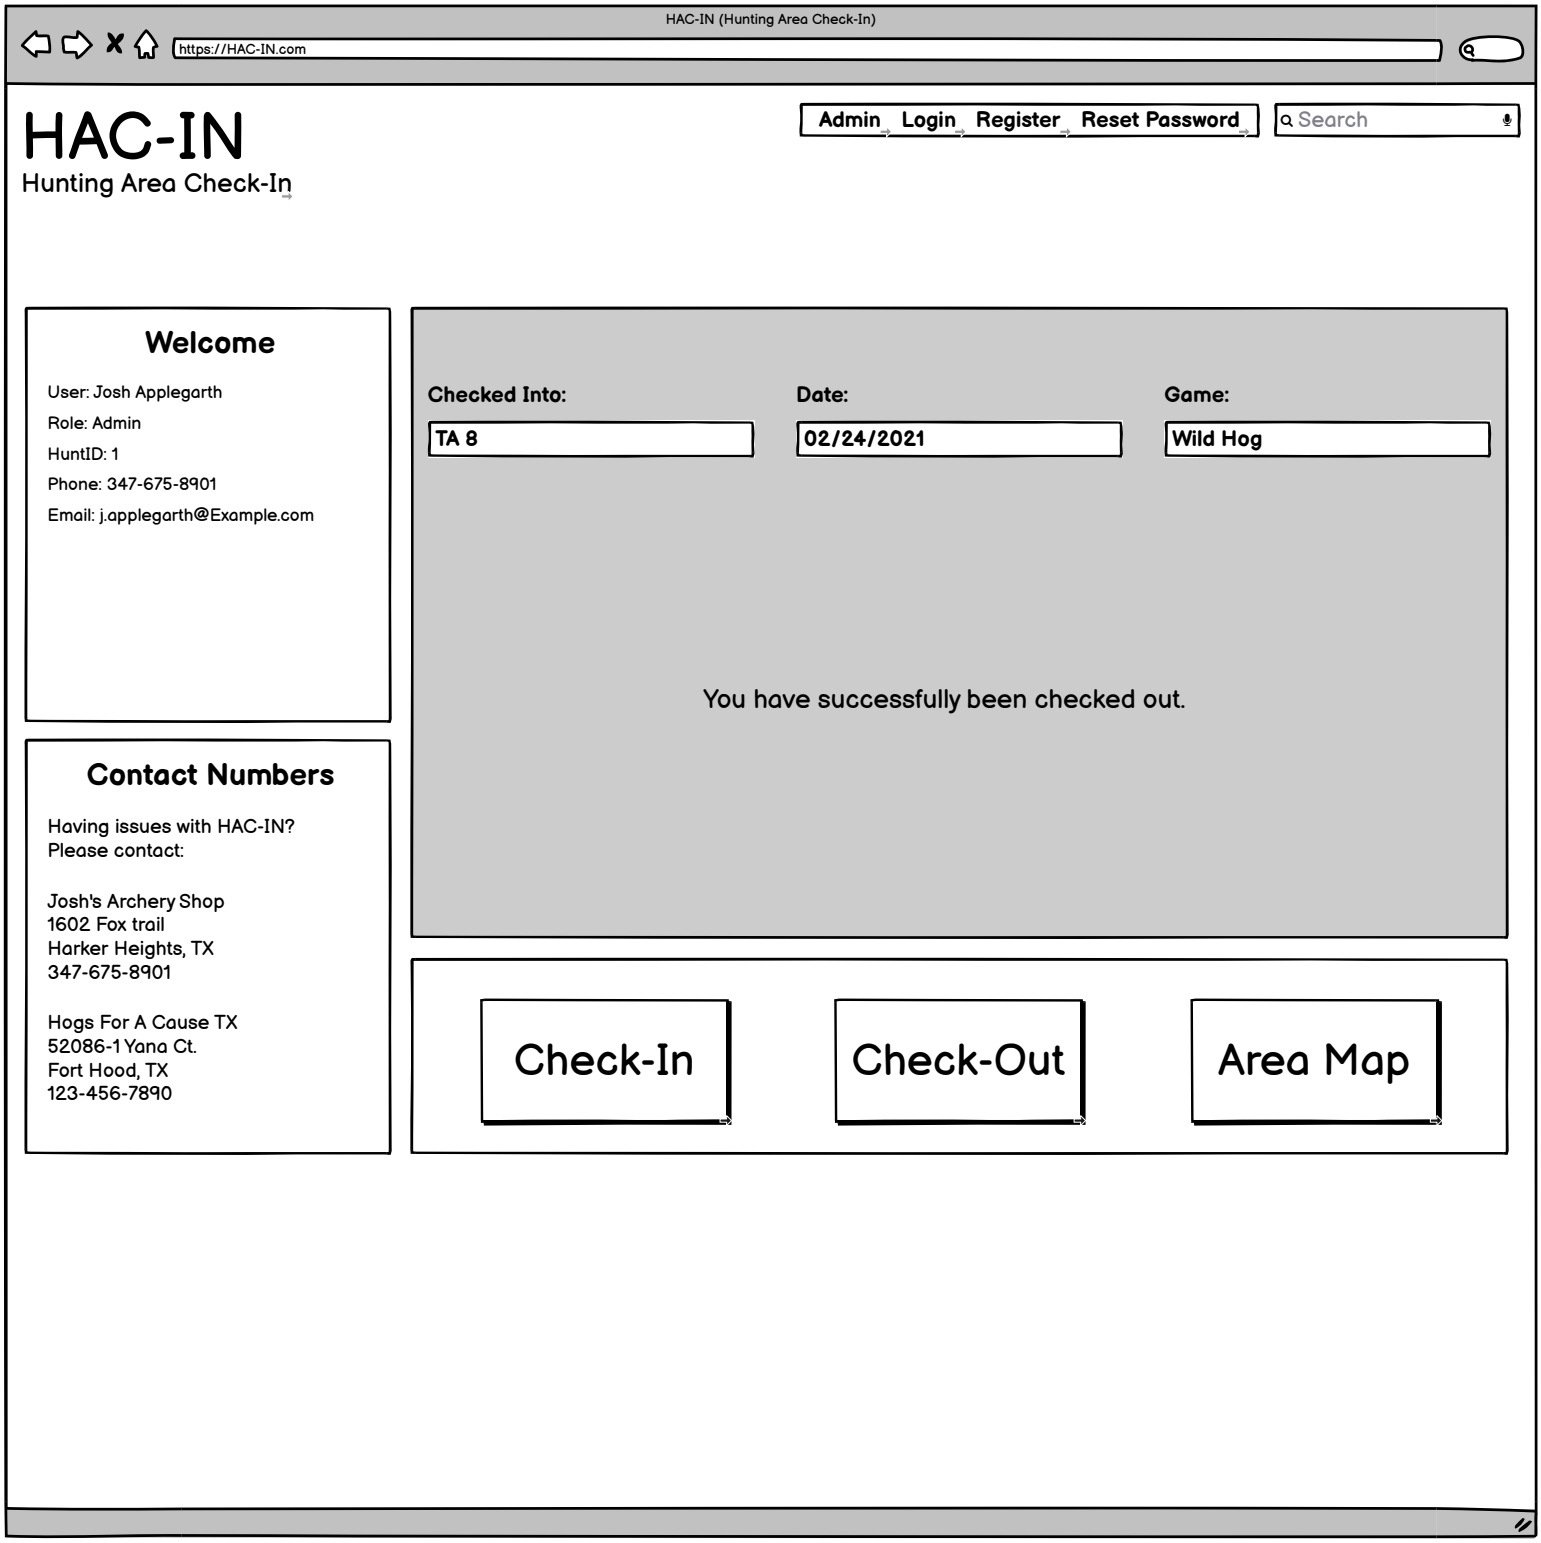


Check-out Page;

Shows User credentials in the side bar to verify it is them checking out;

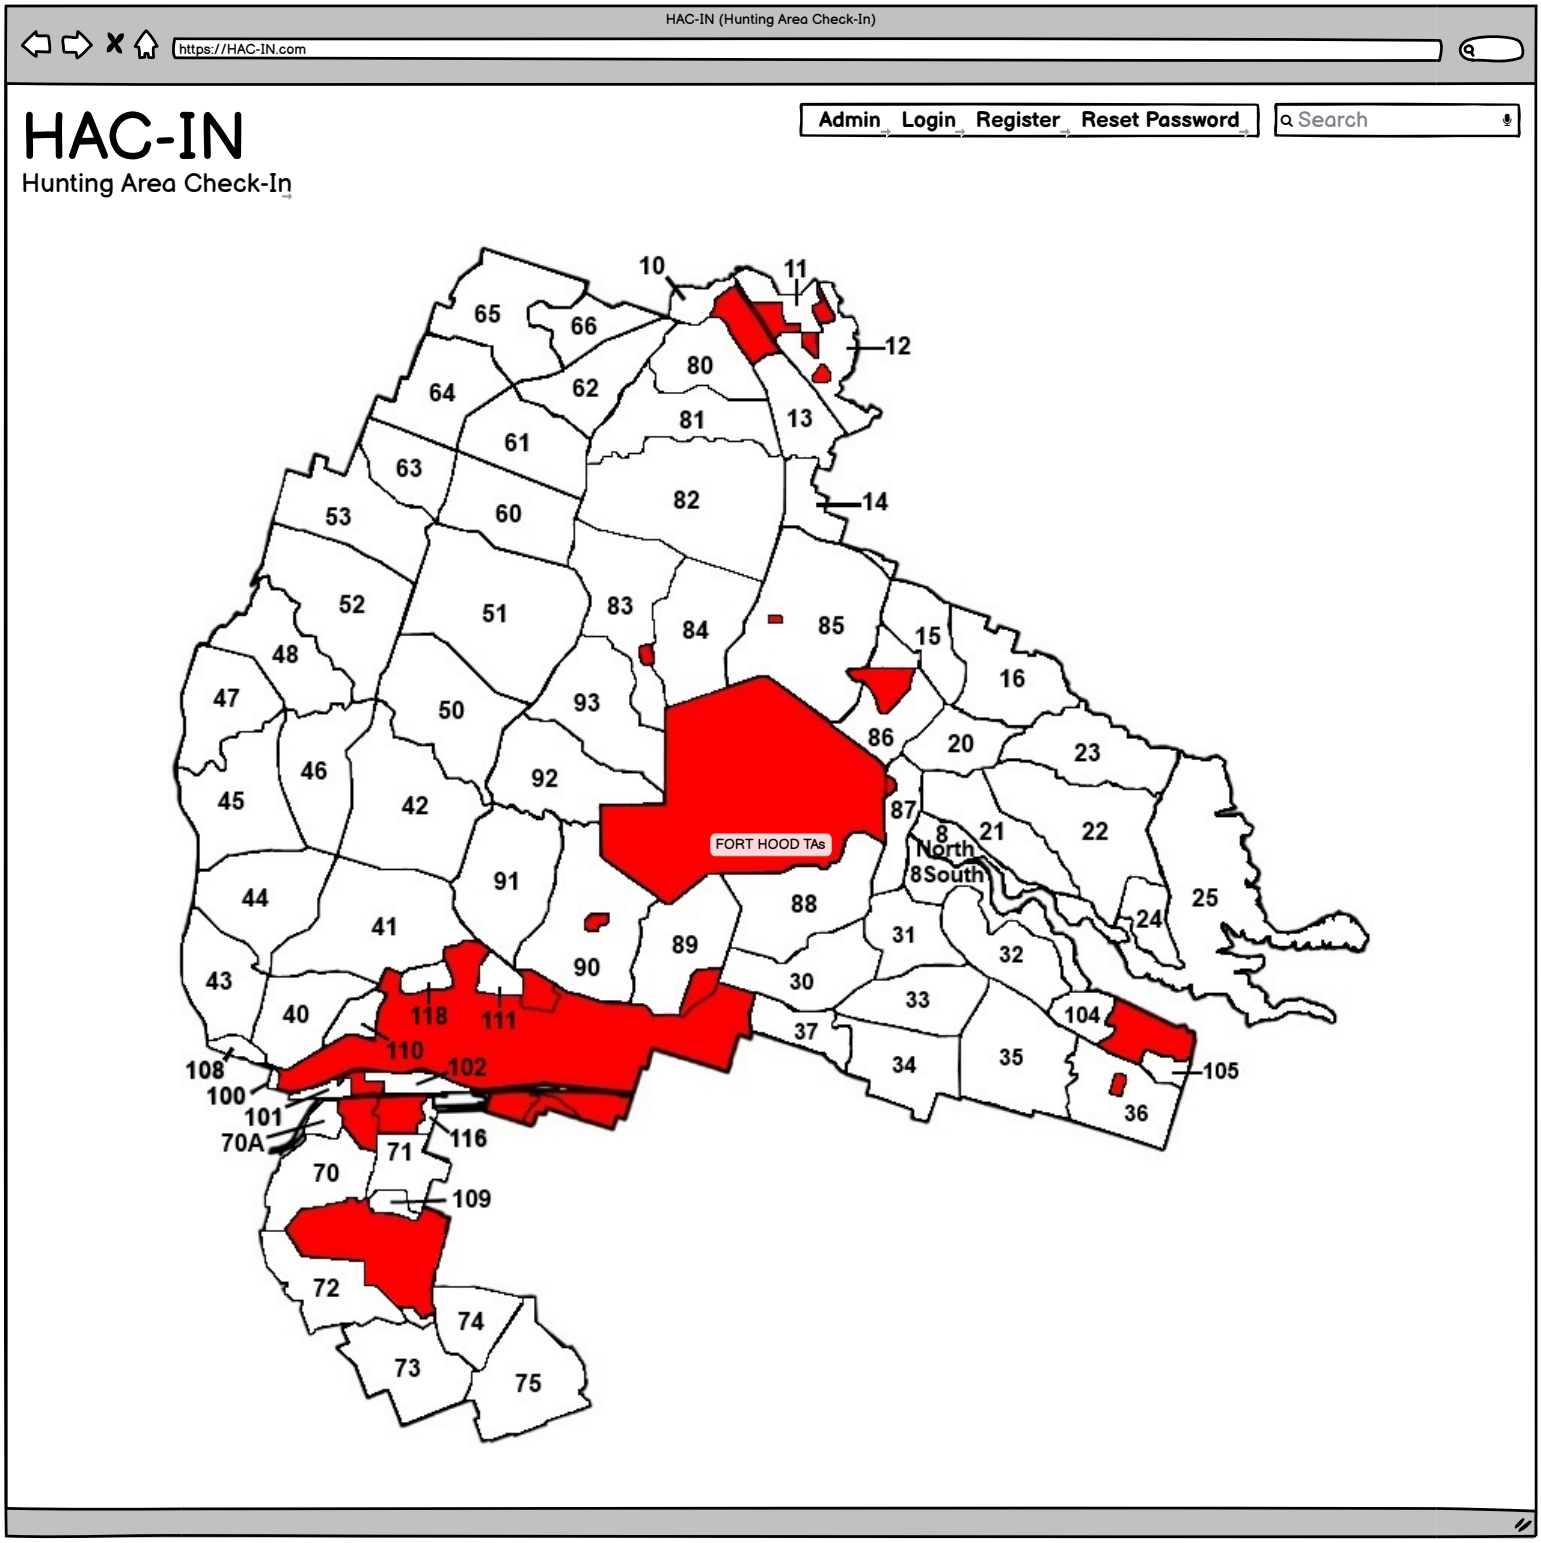
shows what TA the user is signed into, for what date and what game/access;

then allows them to click the check out button to cancel the current reservation



Checked Out Page;

Shows a Hunter they have been successfully been checked out of a TA.



Area Map Page;

Displays the Area Map for anyone who logs onto HAC-IN
